

STRIVING FOR A SUSTAINABLE FUTURE

GENAN COATED INFILL

For the application as infill in artificial turf,
Genan offers colour-coated granulates:

GENAN COATED INFILL.

GENAN COATED INFILL is a colour-coated
alternative to conventional, black GENAN rubber
granulate – and comes in two different colours:

NATURE GREEN and **EARTH BROWN**.

GENAN COATED INFILL is coated with
inert, non-toxic pigments
and polyurethane binder only.

GENAN COATED INFILL is based on GENAN
FINE/MIX granulate – with granule sizes
between 0.8 and 3.0 mm.
